

The screenshot displays the Amazon S3 console interface. On the left, a sidebar lists various S3 features and settings. The main area shows the 'Buckets' section with a table of existing buckets. The first bucket, 'aws-cloudtrail-logs-705441385215-e8ba5a26', is highlighted in blue and has a status of 'Bucket and objects not public'. The second bucket, 'new-bucket-49', is listed below it with a status of 'Public'.

| Name                                      | AWS Region                      | Access                               | Creation date                       |
|---|---------------------------------|--------------------------------------|-------------------------------------|
| aws-cloudtrail-logs-705441385215-e8ba5a26 | US East (N. Virginia) us-east-1 | <u>Bucket and objects not public</u> | July 20, 2023, 09:57:34 (UTC+05:30) |
| new-bucket-49                             | US East (N. Virginia) us-east-1 | <u>Public</u>                        | July 15, 2023, 17:09:05 (UTC+05:30) |
